

STUMP GRINDER

STUMP GRINDER SG340

An ECHO Bear Cat Stump Grinder, equipped with a 340cc Honda OHV engine and twelve hardened carbide steel cutting teeth, quickly grinds down stubborn tree stumps in minutes. At only 23" wide, the compact design allows you close access for stumps near buildings and entry through just about any gate opening. A single wheel brake allows the unit to pivot the cutting head across the stump while holding a fixed position. Using the screen-covered opening allows an easy view to the cutting action.

- 340cc Honda OHV engine
- 23" width
- 22" pneumatic tires
- Double-banded belt drive
- Fully enclosed housing

A 340cc engine grinds down stubborn stumps in minutes

Twelve hardened carbide steel cutting teeth make quick work of tough stumps

A single wheel brake allows the cutting head to pivot across the surface of a stump

| Model No. | Engine | Size (in)(LxWxH) | Grinder | Starter Type | Weight (lbs) | Tires | Wheel Base (in) |
