

FR650C

The FR650C is an exclusively commercial-grade, self-propelled tiller ideal for rental, larger residential and commercial applications. Powered by a GX160 4-stroke overhead valve Honda engine, this rear-tine tiller features the Active Rotary System, which includes Honda's patented co-axial counter-rotating tine drive system, where each tine is balanced with a tine rotating in the opposite direction. The action works just like a powerful mixer made for soil, resulting in optimum soil texture with minimum effort.

Features

- Honda GX160 OHV 4-stroke mini engine
- Rear tine with exclusive Honda Active Rotary System™
- Ergonomically arranged controls
- Narrow transmission case
- Quick-release clutch bar
- Differential lock allows effortless 180° turns
- Streamlined design with low centre of gravity
- Adjustable handlebar/adjustable depth bar
