## Rotary Spreaders

Homeowner's, Landscapers, ground maintenance providers will appreciate these rugged and durable rotary spreaders. The large hoppers provide for extended use and the pneumatic tires glide easily along the turf.

A .75 cubic foot hopper make this spreader hand and stronger. A rotary agitator stirs material a factory calibration ensure consistent application perfect for the homeowner

With more capacity than the 41RS, this spreader features a rate control system with factory calibrated fingertip adjustment that is perfect for homeowners with large yards

A rugged spreader built with a heavier frame that is powder coated to minimize corrosion

All of the efficiency and accuracy of the RS76 with a stainless steel frame to ensure long life

**Side Deflector** Protect sensitive flowers and plants from chemicals. The side deflector is simple to attach and is easily repositioned when not needed. Fits the RS76 and RS76S. **81214**
