

446s

Ideal for farm, home, or commercial applications. The high performance professional saw offers superior power-to-weight ratio. Includes easy-to-pull recoil starting system and inertia chain brake.

	446s
Dry weight*	9.9 lbs (4.5 kg)
Displacement	2.7 cu. in (44.6 cc)
Output	3.1 hp (2.3 kW)
Fuel tank capacity	18.2 oz (540 ml)
Oil tank capacity	9.1 fl. oz. (270 ml)
Bar length	16 to 18 in. (40 to 45 cm)
Fuel 50:1 ratio	Gasoline/mixing oil
*Dry weight, less attachment	

Features

- Easy access air filter; no tools required.
- High-performance 3.1 hp, 44.6cc engine. Best power-to-weight ratio in its class.
- Ergonomic front handle with 7 degree offset. Fits operator naturally with less fatigue.
- Dual post, inertia activated chain brake. Automatically activated by reactive forces, or manually activated by operator.
- Captive oil cap. Retainer eliminates losing the oil cap. Oil cap can be easily removed with starter handle if too tight.
- Spring assisted starting system. Spring tension assist provides *Easy to Pull* starting.
- Oversize starter handle. Provides comfortable starting grip, easy to grasp with gloves.
- Full anti-vibration system. Reduces engine, bar and chain vibration to operator.
- Combination choke and ½ throttle lock. Provides easy starting, returns to idle when throttle lever is activated.
- 45 degree angle chain adjusting screw. Easier access for saw chain tensioning.
- Chrome plated 4-bolt cylinder with 2-ring piston design. Long lasting, extended service.
- Fully adjustable, automatic oil pump, clutch driven. No oil at idle to reduce waste.
- Aluminum handlebar. Durable and lightweight.
- Rubber rear hand grip. Provides superior operator comfort.
